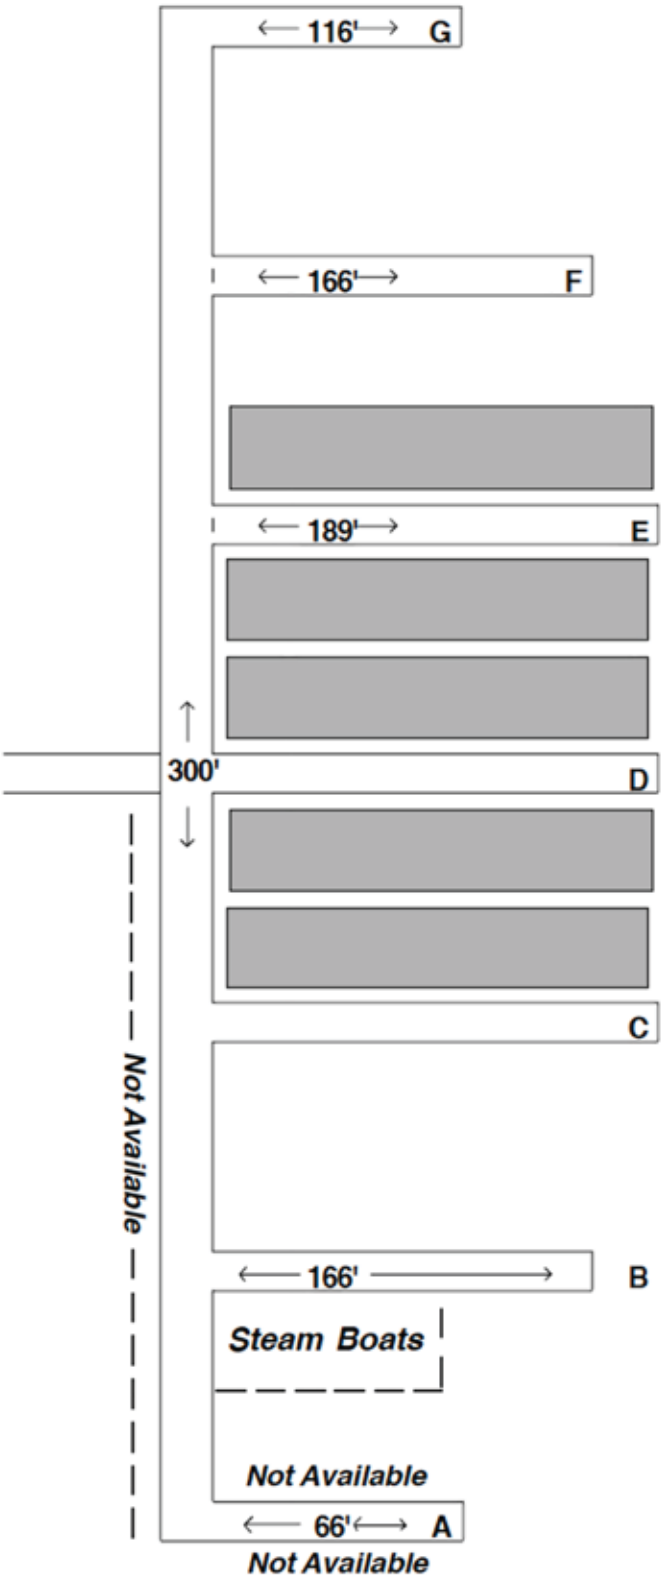
Docking Procedures

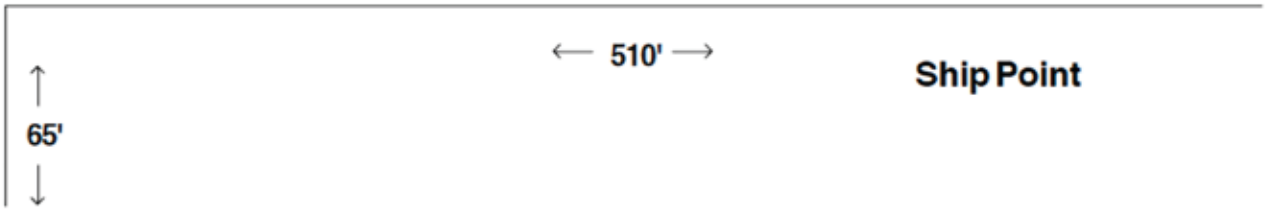


To help alleviate the problem of the faster power vessels arriving first and taking up the limited dockside space, where possible we will allocate docking space to different types of vessels on a pro rata basis.

We also request your cooperation as we allocat specific spaces for the vessels that will be judge These spaces are from the south side of finger to and including the south side of finger E (show in the shaded areas) for vessels under 50' o.a.l. The balance of the space will be allocated at the discretion of the festival Wharfinger. Ship Point remains for all vessels over 50'.

To further ease operations over the weekend, ar for the added safety of all participants, we ask th ALL skippers using fingers B through G face the bow of their vessel to sea; i.e., stern to the sea wall.

Please bear in mind that we are unable to "guarantee" spaces and locations.

N


TENDERS MUST STAY WITH THE REGISTERED VESSEL - NO SEPARATE SPACE IS AVAILABLE.
